NEW DELHI, 3 (INDIA) ; }  
The 7th May, 1951. }

S. P. JAIN,  
for Registrar General, India.

# NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

**TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT.**

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 14th April, 1951.

† Figures not available.

Explanation of symbols used:—B. = Births; B.R. = Birth rate; C. = Cholera; S. = Small pox; P. = Plague; F. = Fevers; D.D. = Dysentery and Diarrhoea; R.D. = Respiratory diseases; M.D. = Maternal deaths; D.R. = Death rate; I.D. = Infantile deaths (included in total deaths).

## REMARKS

The figures of births and deaths shown in this statement for the week ending the 14th April, 1951 relate to 133 towns with an estimated population of 20,804 thousands. The total number of towns is 234 and their population is 29,017 thousands. Thus 57% of the total number of towns representing 72% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 10,939 and 6,554 representing birth and death rates of 27.3 and 16.4 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 114 towns with an estimated population of 18,117 thousands. Information about Assam, Bihar and Madras could not be included. The total number of towns is 202 and their population is 25,187 thousands. Thus 56% of the total number of towns representing 72% of the total population is covered. The numbers of births and deaths recorded

in these towns were 9,633 and 5,776 representing birth and death rates of 27.6 and 16.6 per thousand of population respectively. The table at the end gives the position of States

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 19 towns with an estimated population of 2,687 thousands. The total number of towns is 32 and their population is 3,830 thousands. Thus 59% of the total number of towns representing 70% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,303 and 778 representing birth and death rates of 25.3 and 13.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
